

NearSoft Ltd.

Product/Service Information

NearSoft provides methodology and technology for *near real-time* collaborative processing of the production information inside an enterprise combined with a *near-shore* based **outsourcing** strategy for implementation.

NearSoft has expanded and refined its offerings to Metals industry by building on a decade of experience in delivering comprehensive **Manufacturing Execution Systems** (Level 2) and **Collaborative Production Management** solutions, while expanding and integrating them with control, enterprise and strategic corporate systems.

Our expertise addresses the needs of the whole or part of the Metals value chain in integrated steel plants and mini-mills covering Primary Raw Material Yards, Blast Furnace Plants, Melt Shops, Continuous Casting, Hot and Cold Rolling Mills, Processing Lines and Shipping Yards.
